**Fig. 11:** Human Cystatin C immunodetection in CSF and plasma samples

**Fig.12:** Bovine haemoglobin immunodetection in plasma samples

10-20% Tricine Gels Gradipore

Ac I: Affinity pure goat anti Hb human, Biomeda 1/100 (10 ug/ml)

Ac II: Rabbit Ig G anti goat HRP, Dako, 1/2000

bovine haemoglobin: 100 ng of purified proteins from bovine erythrocytes

Human haemoglobin: 100 ng of semi-pure oxyhaemoglobin from human erythrocytes

**Fig.13:** Analytical silver nitrate stained 2D gel of BSE - plasma sample

**Fig. 14:** SELDI profiling of human and bovine Haemoglobin  
on NP20 (native protein 66 kda)

**Fig. 15A:** Comparison of bovine Hb Seldi profile and BSE + plasma samples

**Fig. 15B:** Comparison of bovine Hb Seldi profile and BSE + plasma samples between 7 and 50 kda

**Fig.15C:** Comparison of bovine Hb Seldi profile and BSE + plasma sample < 7 kda
